PROFESSIONAL SUMMARY

AI Engineer with a Master's in Computer Applications, looking to start my career in Artificial Intelligence and Machine Learning fields. Experienced in building AI-powered applications through self-driven projects, with a strong interest in learning and growing in a professional environment.

TECHNICAL SKILLS

Programming Languages: Python, C, JavaScript, SQL
Artificial Intelligence: Machine Learning, Deep Learning, Computer Vision, NLP
Generative AI: Transformers, LLMs, Retrieval-Augmented Generation (RAG), Vector Search (FAISS)
Agentic AI Frameworks: CrewAI, LangChain, LangGraph, Model Context Protocol (MCP)
Frameworks & Libraries: TensorFlow, OpenCV, Scikit-learn, NumPy, Pandas, Matplotlib, Seaborn, HuggingFace
Databases: MySQL, MongoDB
Developer Tools: Git, GitHub, CI/CD with GitHub Actions, Docker, VS Code, Google Colab, Jupyter Notebook, Streamlit
Cloud Platforms: Basic understanding about Google Cloud Platform (GCP) – Cloud run, Vertex AI

PROJECTS

Agentic AI Resume Analyzer using CrewAI
July 2026

Self-learned Project
Repository: github.com/Siyad19/agentic-ai-resume-analyzer
Technologies: Python, CrewAI, OpenRouter API, Serper API, Streamlit,

- Designed and implemented an AI-powered resume analysis system using CrewAI, with specialized agents for resume analysis and job-description comparison.
- Built a Resume Analyzer agent that extracts skills, experience, education, projects, and certifications from uploaded resumes and provides ATS-focused insights.
- Developed a Job Description & Resume Comparison workflow to identify matching skills, missing keywords, skill gaps, and overall job alignment.
- Developed a Streamlit frontend for resume upload and job description input, integrating OpenRouter LLM APIs and Serper search API for role-specific insights.

AI YouTube Learning Assistant
June 2026

Self-learned Project
Repository: github.com/Siyad19/ai-youtube-learning-assistant
Technologies: Python, LangChain, LangGraph, FAISS, HuggingFace Embeddings, MCP, Streamlit, Groq API

- Developed an AI assistant that summarizes YouTube videos and answers follow-up questions using transcript-based Retrieval-Augmented Generation (RAG).
- Built a vector search pipeline that chunks video transcripts, generates embeddings, and stores them in a FAISS vector database for fast semantic retrieval.
- Integrated LangGraph to orchestrate multiple AI agents through conditional routing and MCP (Model Context Protocol) to provide a standardized tool-based interface for YouTube transcript retrieval.
- Deployed the assistant with a Streamlit interface for natural-language querying of long-form video content.

EDUCATION

Master of Computer Applications
2023 - 2025

Anna University, Chennai
Nehru Institute of Information Technology and Management, Coimbatore, Tamil Nadu
CGPA: 8.7 / 10

Bachelor of Science in Electronics
2019 - 2022

Calicut University, Kerala
College of Applied Science, Ayalur, Palakkad, Kerala
CGPA: 6.6 / 10

INTERNSHIP EXPERIENCE

AI & Data Science Intern
Dec 2025 – July 2026

Rubixe – AI Solutions Company, Bangalore

- Completed an AI & Data Science internship program with hands-on training in Machine Learning, Deep Learning, NLP, and Generative AI.
- Successfully completed 4 Capstone Projects and 1 Client Project, applying AI and machine learning techniques to solve real-world problems.
- Gained practical experience with Python, Scikit-learn, TensorFlow, LangChain, RAG, LLMs, and data analysis while building end-to-end AI solutions.
- Worked on model development, data preprocessing, evaluation, and deployment using industry-standard tools and frameworks.

CERTIFICATIONS

- Agentic AI Foundations Associate Certification - Oracle
- AI & Data Science Internship Certification, Rubixe - AI Solutions Company, Bangalore
- Artificial Intelligence Engineer - NASSCOM (National Association of Software and Services Companies)
- Artificial Intelligence Expert & Certified Data Scientist - IABAC (International Association of Business Analytics Certification)
